

Policy Timeline and Time Series Data for Kenya (1963-2004)

Policy Timeline and Time Series Data for Kenya

An Analytical Data Compendium

T. C. I. Ryan

Kenya Institute for
Public Policy Research
and Analysis
Special Report No. 3

August 2002
Nairobi, Kenya

There have been various efforts at publishing an extended time series of data for Kenya. These efforts have had a dual aim. First was to make available, in one convenient location, data that would otherwise need to be extracted from periodic publications, and

secondly, to put in series the most up to date revisions of data where periodic publications have not always provided them. In some cases revisions to data have been published but have not been backdated, while in others cases changes in base year or other similar statistical modifications have not been chained to previous series. In these, and similar cases, the publication of extended time series data provides a useful and convenient database.

Primary data coming from various sources are sometimes revised but revisions are not always conveyed to those secondary publications that are usually the most available source to users. Furthermore, long entrenched conventions have led to the use of similar terminology to describe what are actually different concepts. This can easily lead to sterile debate. Even where concepts are the same, different official sources can (and do) compute them differently, and actually publish different results due to errors and omissions.

This data compendium makes no claim to be a definitive work on Kenya's macrodata

series, but it is hoped that it will be of use to scholars and those who want quantitative backing for their arguments. The compendium updates earlier pioneering work and makes available material that has been of limited circulation.

The data mostly covers the period 1963-2004 (obviously now requiring extension to 2010). The areas covered include:

Price, Interest and Exchange Rate Regimes	Government Claims on Non-Government Savings
Cash and Liquidity Ratios and Monetary Policy	Gross Fixed Capital Formation by Industry and Gross Investment (Ksh million)
Interest Rate	Gross Fixed Capital Formation by Industry at Constant 1982 Prices (Ksh million)
Labour Market	Gross Fixed Capital Formation by Industry at Constant 1982 Prices (Proportion in %)
Real Returns	Gross Fixed Capital Formation by Industry at Constant 1982 Prices (Growth Rates in %)
Percentage of Non-interest Expenditures Financed by Collected Resources	Annual Capital Stock and Gross Fixed Capital Formation (Ksh million)
Real Trade Regimes (1982 values)	Financing Account and GNP: Structure and Logic
Data Inputs, Outputs and Transfers	Breakdown of Long-term Capital and GDP Market Price (Ksh million)
GDP at Factor Cost by Industry at Current Prices (Ksh million)	GNP Calculations (Ksh million)
GDP at Factor Cost by Industry at Constant 1982 Prices (Ksh million)	Financing Account: Overall Balance (Ksh million)
GDP at Factor Cost by Industry at Constant 1982 Prices (Proportion in %)	Monthly Balance of Payments (Ksh million)
GDP at Factor Cost by Industry at Constant 1982 Prices (Growth Rates in %)	Incremental Capital Output Ratios
Growth in Income per Head (1982 values)	Cumulated Monthly Balance of Payments
Relative Growth Rates	Fiscal Tables: Structure and Logic
Gross National Disposable Income: Structure and Logic	Non-Borrowed Resources (Ksh million)
Generation of Gross National Disposable Income (Ksh million)	Revenue Structure— <i>Figure 11</i>
Distribution of Gross National Disposable Income (Ksh million)	Pattern of Expenditure
Government's Share of Gross National Disposable Income	Non-Borrowed Resources (%)— <i>Table 13b</i>
Government's Share of National Savings	

Borrowed Financing of Deficit (Ksh million)—*Table 14a*
Borrowed Financing of Deficit (%)
Non-Paper Borrowing
Paper Borrowing
Disposal of Resources (Ksh million)
Disposal of Resources (%)
Fiscal Discipline: the Deficit
Taxation and Revenue Effort
Tax Type Dependence: Trade or Consumption Tax
Foreign Debt Vulnerability
Donor Funding (US \$ million)
Internal and External Debt Stock: Credit, Funded, Unfunded (Ksh million)

Monthly Domestic Debt Stock (Ksh million)
Domestic Debt Development
Money (M1 and M2) and Credit (Ksh million)
Government's Share of Net Domestic Credit (NDC)
Percentage Net Domestic Credit (NDC) to Government
Money (M3) and Credit (Ksh million)
Employment and Wages (Annual)
Proportion of Private Non-Agricultural Employment to Total Public Sector Employment
Macroeconomic Prices
Nairobi Stock Exchange (NSE) Index
