The County Business Environment for MSEs (CBEM) framework has been developed to monitor key issues that require policy interventions in creating an enabling environment for the Micro and Small Enterprises (MSEs) sector in counties. The framework covers four key areas affecting the operations of MSEs: Worksites and adequacy of their infrastructure; Market environment; Financial and technical capacity; and Governance and regulatory framework. This brief indicates the business environment for MSEs in Migori County.

Migori County Demographics and Output

1. Total population, 1,116,436; Female, 52%
   Contribution to total GDP: Average 1.2% for the period 2013-2017
   Contribution to Gross Value Added: 1.3% in 2017

2. Sectors driving growth in economic activity: Manufacturing (2.8%); Agriculture (42%); and Services (46%)

Importance of MSEs and Challenges

Employed 50.0% of working population
Contributed 18.9% of GDP

2016
Employed 81.0% of working population
Contributed 24.7% of National output and 23.6% Gross Value Added
MSEs’ Business Environment

All the scores for MSEs’ business environment are drawn from the CBEM framework (KIPPRA, 2019). The MSEs’ business environment is measured using the following: Worksite and related infrastructure; Market environment; Financial and technical capacity; and Governance and regulatory framework. The scores range between lowest (0) and highest (100). Migori County scored a total of 17.3.

</table>
### Market Environment for MSEs

- **Scores**
  - Road infrastructure: 24.3
  - Access to physical markets: 27
  - Access to Government Procurement Opportunities (AGPO): 10.5
  - Fair competition: 4.6

- **Constraints**
  - Unfair trade practises manifest through: counterfeiting, dumping (sub-standard goods) and misrepresentation (through weight, price, ingredient).
  - Low uptake of AGPO due to information asymmetry and informality
  - Poor road infrastructure

### Financial and Technical Capacity for MSEs

- **Scores**
  - Training (capacity building) for MSEs: 16.9
  - Knowledge and skills mapping: 15.1
  - MSEs survival rate: 3.0
  - Access to digital finance: 2.3
  - Innovations: 0.6
  - Patenting: 0.01

- **Constraints**
  - Fragmentation due to multiplicity of players who offer training and capacity building
  - Low uptake of digital finance
  - Lack of a training and apprenticeship programme for artisans
  - Lack of training needs assessment for MSEs
  - Lack of monitoring and evaluation of training programmes
  - High cost of doing business

### Governance and Regulatory Framework for MSEs

- **Scores**
  - Licensing and issuance of permits: 34.7
  - Self-regulation: 30.9
  - Crime and public security: 23.4
  - Corruption and governance issues: 9.2

- **Constraints**
  - Multiple licences and permits
  - Corruption
  - Insecurity
  - Misallocation and exploitative tendencies within the worksites
Way Forward in Creating an Enabling Environment for MSEs

a) Worksite and Adequacy of Infrastructure
   • Collaborate with Micro & Small Enterprises Authority (MSEA) and other relevant agencies to facilitate access of common manufacturing facilities.
   • Enhance provision of water supply, sanitation and waste disposal facilities in/around worksites.

b) Market Environment for MSEs
   • Create an enabling road infrastructure to facilitate trade. Efforts to fund some of the road infrastructure projects through Public Private Partnerships is critical.
   • Partner with the National Government in levelling the playing field for MSEs to address competition and unfair trade practices among MSEs, and collaborate with the Anti-Counterfeit Agency (ACA) and Kenya Revenue Authority (KRA) to sensitize MSEs on issues of counterfeits and dumping of goods.
   • Collaborate with the AGPO secretariat to promote and enhance sensitization of MSEs on this affirmative action to increase uptake.

c) Financial and Technical Capacity for MSEs
   • Collaborate with relevant training institutions such as Kenya Institute of Business Training and National Industrial Training Authority in knowledge and skills mapping to provide relevant entrepreneurial training and technical training, apprenticeship and certification programmes to MSEs.
   • Collaborate with national institutions such as Kenya Industrial Research and Development Institute (KIRDI) and Kenya Industrial Property Institute (KIPI) to carry out sensitization to MSEs on innovation and patenting of their products. KIRDI and KIPI need to facilitate mechanisms of subsidizing cost of innovations and patenting, respectively.
   • Collaborate with financial sector players such as banks, SACCOs and micro finance institutions in targeting MSEs through financial innovations with an opportunity to penetrate and deepen financial services.

d) Governance and regulation framework
   • Work with MSEA and Ethics and Anti-Corruption Commission to eliminate misallocation and exploitative tendencies within the worksites.
   • Work alongside the National Government to enhance security in/around worksites to reduce on crime and create a safe business environment.
